

OK - listen up...you have to hurry to get a free one.

Above is a picture of a new and revolutionary cell phone headset being offered by a company owned by a friend of mine. If you would like a free headset so you can talk "hands free" around the house or in your car, order one before the promotion ends. They only have 1000 to give away before they come out on the market for about \$29.95 + S&H.

The company is very eager to get off the ground with their new product and they are doing this as a promotion and they are GOING FAST!! Get Yours NOW!!
